OUR UNDERSTANDING OF YOUR NEEDS

- Weekly inbound truckloads into Harrisburg, with multiple trucks during peak weeks
- About 1,126 orders a year, with most of the volume March through May
- Inbound pallets broken down and rebuilt by route per your plan and stacking order
- Orders staged for pickup by Bungii delivery pros in pickups and vans, loaded at ground level
- Every item scanned in on arrival and by your drivers at pickup
- Damages reported the same day, returns held for LTL pickup

WHY 24 HR CROSSDOCK

- Built for cross-dock.** Cross-dock, pallet storage and local delivery are our core business.
- Proof on every load.** Photos at receiving and staging, and a scan on every carton.
- Staffed for your peak.** We plan labor around your March to May surge so orders stay on schedule.
- Three locations.** Middletown, PA; Sparks, NV; and North Highlands, CA, if you grow into new markets.

HOW WE HANDLE YOUR FREIGHT

- 1 **Before arrival.** We review the manifest and outbound build plan as soon as the truck leaves your customer's facility.
- 2 **Receiving.** Driver check-in, seal and count checked against the BOL, photos, and a scan on every carton.
- 3 **Build.** Inbound pallets broken down and rebuilt by route per your plan and stacking order.
- 4 **Staging.** Outbound pallets staged by route and ready for pickup.
- 5 **Pickup.** Forklift loading at ground level. Your delivery pros scan each item at pickup.
- 6 **Damages and returns.** Reported the same day with photos and held for LTL pickup.

A general outline. We will fine-tune the details together on the discovery call.

NEXT STEPS

- 1 **Discovery call.** Walk through the SOW, your build plan and the pickup process.
- 2 **Finalize the SOP.** We write the site procedure with your team and confirm contacts.
- 3 **Test load.** Run the first inbound truck together and adjust anything that needs it.
- 4 **Go live.** Weekly volume begins, with weekly invoicing and reporting.
